MARHIS, Maritime Aggregated Research Hydraulic Infrastructures, is a distributed research infrastructure of the Ministry of Economy and Competitiveness (MINECO) in Spain, unique in the hydraulic engineering field. It aims to increase the efficiency and capability of Spanish numerical, experimental and field facilities for applications to coastal, harbour, offshore engineering and the many interactions between structures and marine climatic factors.

The infrastructures aggregated in the *Instalación Científica y Técnica Singular* (ICTS)

Upload the documentation

The screenshot displays the 'ACCESS 3' user interface. At the top, it shows 'DOCUMENTATION PERIOD' with details: Inscription date (2017-10-05 10:40:47h), Name (Manel), E-mail (mucuqui@gmail.com), and Facilities (Pendiente de asignar instalación). Below this is a section titled '1 USER DOCUMENTATION ZONE' which contains 'UPLOADED DOCUMENTATION' (with the message 'There is no uploaded document') and a file upload area with 'Select files' and 'Upload' buttons. A red circle highlights the 'UPLOADED DOCUMENTATION' section. To the right, a 'TIMELINE' section shows three stages: 1. DOCUMENTATION PERIOD (01/07/2017 00:00h), 2. TECHNICAL REVIEW PERIOD (15/10/2017 23:55h), and 3. CIENTIFIC REVIEW PERIOD (31/10/2017 23:55h and 15/11/2017 23:55h).

You can find the documentation [here](#)
